**Subject:** 001 Password Policy

Weak passwords have been a problem for us in the past.

Please create a policy on passwords for use within the organization and send that policy up in a word document or pdf.

The policy must feature:

1. 2 special characters, 1 upper case character, 1 lower case character.
2. 10 character minimum
3. lockout the user after 5 failed password attempts
4. maximum of 90 days before a users password must be changed
5. No password hints.

Thank you.
